- **Processor:** Qualcomm MSM6550
- **Battery Specifications:** Standard Li-Ion (1400 mAh)
- **Bright, energy-efficient screen:** Vibrant TFT display with 65K colors and 320 x 240 resolution

### FEATURES:

- **International Roaming Capabilities:** The first Sprint CDMA BlackBerry capable of roaming globally on CDMA and GSM/GPRS networks for voice and data services. Sprint Worldwide service is available in more than 170 countries for voice service and 75 for data service. A complete list of countries where service is available can be found at [www.sprint.com/international](http://www.sprint.com/international).
- **Unlocked SIM Card:** International travelers, including enterprise customers with significant employee groups working abroad, will find additional value with the BlackBerry® 8830 World Edition powered by Sprint because the SIM is unlocked and will accept an in-market international carrier's SIM for voice and data services.
- **Sprint Mobile Broadband:** Where available experience broadband-like data speeds averaging up to 400-700 kbps and peak speeds up to 2.0 Mbps when accessing Sprint Power Vision services and content. Supported applications include:
  - **On Demand:** Retrieve customized, up-to-date web content such as sports, weather, news, money and movie information with the push of a button
  - **Sprint Software Store:** Certified content is available via the Sprint Software Store powered by Handmark™, an intelligent on-device catalog of applications and digital media, allowing users to find, download and buy games and applications simply and securely. The store can also be visited online at <http://softwarestore.sprint.com>.
- **BlackBerry Push Technology:** Receive email and data automatically sent to your device. Supports up to 10 business and/or personal email accounts.
- **Phone as Modem (PAM):** Take advantage of Sprint Mobile Broadband on your laptop by using the device as a wireless modem (USB cable included). PAM capabilities included in all Sprint BlackBerry service plans.
- **GPS Capability:** Whether you need turn-by-turn driving directions or a smarter way to manage your mobile travel needs, Global Positioning Satellite (GPS) solutions can help get it done. GPS location-based services, such as Sprint Navigation, can deliver audible turn-by-turn driving directions to any address, anywhere on the Sprint Mobile Broadband Network.
- **BlackBerry Maps:** Allows users to find businesses, restaurants, concert venues and other important locations by entering addresses and viewing locations on maps and receive step-by-

step written directions. BlackBerry Maps works together with other BlackBerry applications – like the address book - which makes it quick and easy to locate home or work addresses of key contacts.

- **Micro SD Expansion Slot:** Add memory for larger work files – presentations, reports, documents or transfer music, photos, and video from your desktop, or load additional games and applications. Cards up to 2GB supported; sold separately.
- **Built-in Bluetooth® Wireless Technology (v. 2.0):** When used with your Sprint Phone and accessories, Bluetooth allows fast, secure transmission without cables or wires, even though the two devices are not in line-of-sight. Bluetooth wireless accessories sold separately.
- **Built-In speakerphone:** Hands-free operation made easy
- **Voice Activated Dialing:** Built-in speaker independent voice command allows users to look up contacts, place phone calls and access key information from the device.
- **Media Player:** Features a media player with stereo headset jack so users can play downloaded music, video, audio files, pictures and ringtones.
- **Integrated Attachment Viewing:** Download, view and edit Word and Excel compatible files; rehearse PowerPoint presentations anywhere; consult important PDFs on the go.
- **Productivity Tools:** View and update your calendar, schedule appointments, checks your task list and more while you're on the go. Also includes a calculator, alarm clock and memo pad.
- **Full-Featured Phone:** including dedicated "send" and "end" keys, a built-in speakerphone, Bluetooth capability for wireless headsets and car kits, and support for polyphonic ring tones.
