HTC Touch Diamond™

The Best of Work and Play at Your Fingertips

HTC Touch Diamond effortlessly combines the power of Sprint's National Mobile Broadband Network (EV-DO Rev. A) with Windows Mobile 6.1 and an innovative and captivating 3D touch-screen experience. Ideal for both business and personal use, HTC Touch Diamond provides easy access to Sprint-exclusive multimedia content, including Sprint Music Store's quick over-the-air song downloads and Sprint TVSM with an extensive collection of live and on demand channels. This device introduces TouchFLO™ 3D a dynamic touch-screen experience that puts live television, weather, email, photos, contacts, music and more at your fingertips. Sporting a slim and elegant design, HTC Touch Diamond offers a high-resolution 2.8 inch VGA display, smooth browsing experience powered by Opera, crisp 3.2 megapixel camera/camcorder with auto-focus and stereo Bluetooth® technology.
